Epic

~~user~~

Scenario 1
↓

As a user I want to continuous view my glucose levels, monitor, set goals right on my phone/wrist

Scenario 2
↓

As a user I want my linked smart watch to help me monitor my sugar levels even when I am busy with life without have to use an App.

Scenario 3
↓

To be able to track my glucose, view glucose trend, history graph to help me improve my glucose levels & provide videos/resources to help me understand the App and how to stay healthy, etc
